A cross-sectional view of a device assembly 133. The assembly includes a central vertical component 612, which is surrounded by a sleeve-like structure 610. The sleeve 610 has a top flange 618 and a bottom flange 626. The top flange 618 is secured by a cap 600 and a screw 620. The bottom flange 626 is secured by a base 606 and a screw 622. The central component 612 has a top surface 602 and a bottom surface 604. The bottom surface 604 is connected to a base 614, which is further connected to a base 616. The base 616 is a large, oval-shaped component. The base 614 has a central opening 635, which is surrounded by a ring 636. The ring 636 is secured by a screw 637. The base 614 also has a side surface 638 and a bottom surface 640. The base 616 has a top surface 642 and a side surface 634. The base 616 is connected to the base 614 by a screw 628. The base 616 is also connected to the base 614 by a screw 632. The base 616 is also connected to the base 614 by a screw 634.
